

REMARKS

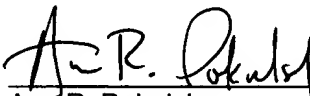

Applicant submits this corrected section of a previously submitted non-compliant amendment in response to a Notice of Non-Compliant Amendment. Specifically, a new listing of claims is submitted herewith, with typographical errors removed.

In particular, claims 8, 13, and 16 have been corrected to recite "A method of treatment or prophylaxis" rather than "A method of treatment *for* prophylaxis." Claims 11, 12, 14, 15, 17 and 18 have been corrected to recite "The method" rather than "The composition." In claims 13 and 16, "infections" has been corrected to read "infection." A comma has been removed from claim 13, line 4, immediately after "famciclovir." Claim 15 has been corrected to depend from claim 14 rather than claim 11. A comma has also been inserted immediately after "14" in this claim. In claim 16, "administering" has been moved to appear immediately before "either separately or sequentially" rather than immediately after this phrase. In addition, commas that were inadvertently removed in claims 10, 11, 12, 17 and 18, in the February 23, 2006, amendment, have been re-inserted into these claims.

Applicant respectfully requests that the Examiner enter into the application this corrected listing of claims.

Respectfully submitted,

Novartis
